Featuring the new, vital PRESENCE CONTROL

With the thrilling new PRESENCE CONTROL, you take the leader's baton and conduct the orchestra to suit your own listening pleasure in the ELECTRO-VOICE MUSIC CONTROL CENTER. Balances vocals to orchestra and room acoustics for true high fidelity. Just like the network and recording studios, the PRESENCE CONTROL gives mid-range program equalization never before available in home systems. Low-boy styling is skillfully blended with mocha, satin brown, and brushed brass trim for a beautiful appearance that matches blonde or mahogany cabinets.

With ELECTRO-VOICE CIRCLOTRON AMPLIFIERS, you come closer than ever to perfection in high-fidelity reproduction. The famous Circlotron Circuit provides unity coupling between output tubes; eliminates switching transients and removes DC from output transformer. The exclusive Variable Damping Control greatly reduces loudspeaker low-frequency distortion and voice-coil override. Permits matching amplifier, speaker and enclosure to room...for the closest approach to reality of reproduction.
